Benbough's Back Yard

Ruin S. D. Flower Growers

Why Does Cooper Oppose Separate Water Utility?

By C. Leon de Aryan

While going about my business around town, an old friend of mine stopped me: "Say, Mr. de Aryan", said he, "why don't you take some time off from fighting the international Jews and the lend-lease dictatorship to do something for San Diego? After all, it is we San Diegans who are the main support of your paper and you might just as well be of service to us at home, even though it is allright to fight Roosevelt's usurpation of powers and entry into the war. Lindbergh is showing them up aplenty and so does Wheeler, but we need somebody to expose our politicians right here in San Diego."

"What have you got on your mind?"

"Did you read that item in the UNION where Walter Cooper found suddenly $36,000 to beautify and fence in Benbough's back yard at the expense of us taxpayers, while Cooper wants to raise the water rate on San Diego flower growers to put them out of business and let the Los Angeles growers have the field to themselves since they pay only 3c for water while Cooper wants to charge our growers 10c in place of the present 8c."

"Sorry, I missed that article about Benbough's back yard. Which one do you mean, he has so many."

"I mean his mortuary at the Mt. Hope cemetery. After those naughty boys tumbled over a few grave stones Cooper went to work and figured out a whole program of fencing in the cemetery, beautifying it, putting in new water mains, etc. It all raises the value of Benbough's business."

"But that won't help Benbough so much, it's a city cemetery."

"I am surprised at your ignorance, de Aryan," said my friend. "Don't you know that Benbough has a virtual monopoly on the undertaking business?"

"Now, now, come down to earth, you are exagerating."

"This is no exageration; he owns Bonham's besides his own."

"I knew that 10 years ago."

"Yes, but he also got Merkley's now. And he runs the fellow in La Jolla, in Escondido, and is getting control of Ryan's and Saum's."

"I heard about the La Jolla deal, but Ryan's and Saum's is news to me."

"Can't you see? Cooper refused to let the Charter Revision Committee recommend a separation of the accounts and revenues of the water system from the general tax fund, even though he admitted in a written report that the water system is not only self-supporting but pays besides. So he wants to continue to milk the water consumers for the profit of the land speculators. He takes that surplus from water revenues and beautifies Benbough's back yard at Mt. Hope where the city buries people free of charge and that leaves more money to pay the undertaker. And Benbough is getting control of the undertaking business. Can't you see?"

"Well, I see something, allright, and you can rest assured that Cooper is not going to play hob with our water revenues while he made such a good job getting cuts from the Gasco.

"But, de Aryan, this is not all. Benbough uses the city's advertising fund to draw wealthy customers from the East to come here and die. Since he is getting the monopoly on the high class mortuarys it's all velvet to his pockets. But we taxpayers must foot the bill."

"So that is where the tie-in comes between Macauley and Benbough?"

"Why sure, they take the money from the water revenues, hand it to the C. of C. for an advertising fund, it brings the rich people here to die and Benbough collects for their funerals."

"Now, that's something I'll look into a little more, my friend, thanks for the tip."

Making Water Dept. Public Utility

PROPOSED CHARTER AMENDMENT

Section 53. (f) The Council shall levy and collect annually a tax sufficient to pay the annual interest on municipal bonds heretofore or hereafter issued for water purposes, and also such part of such bonds as will fall due within the succeeding fiscal year; PROVIDED, that when the interest and sinking fund payments for any fiscal year on the bonds issued for water purposes can be made out of the surplus earnings received from the water system for the preceding fiscal year, no tax shall be levied for such purposes. Such taxes shall be in addition to all other taxes levied for municipal purposes and shall be collected at the same time and in the same manner as other municipal taxes so collected.

The receipts from the Water Department shall be paid daily into the City Treasury and maintained in a separate fund set aside for the Water Department, and that the Council may from time to time make appropriations from such funds in the following manner:

1. For the payment of the operating expenses of the Water Department.
2. For repairs and replacements.
3. For payment of interest and redemption of bonds for the acquisition or construction of the water system.
4. For extension and improvements to the Water System.
5. For a reserve fund to be used for the water system only.

If at the end of any fiscal year there shall remain a balance in such reserve fund such amount so remaining shall be deducted from the amount otherwise necessary to be raised by tax levy for the ensuing year, and in the making of the annual budget the City Manager shall take into consideration such reserve fund and the Council in fixing the rate of taxation sufficient to raise the necessary amount required by the annual water budget shall also take into consideration all amounts in such reserve fund and decrease such tax rate accordingly.

CONGRESS ABDICATES FOREVER

It is useless for Congress to give Roosevelt dictator powers with the string tied to it that Congress may revoke them in the future without the need of the President's signature to such revocation. Once Congress gives Roosevelt dictator powers it cannot revoke them except by two-thirds majority over the Dictator's veto. The inserted clause to the contrary is in itself unconstitutional and Roosevelt's packed court will certainly uphold the dictator to that effect.

Labor Racket

(From Radio Talk KGB, Wednesday, 7:15 p. m.)

Getting Signatures Under False Pretenses

City firemen are continuing to ask for signatures to their peititions for two charter amendments to reduce their work week to six days, in place of seven, and on top of this to increase their pay from 10 to 15 percent. The city council granted them already the six days week and increased their wages 14% after I urged it in a letter and in pleading publicly at a council meeting last month. But even after having received what they asked for the firemen continue to tell voters that the council did not give them a six days week and therefore they want to amend the charter. I have listened for hours to this false statement made on the streets of San Diego while people kept on signing under the impression that the council was abusing the firemen. When the council gave the firemen a reduction in hours from 84 to 72 hours a week and did not cut their pay for working less, the council thereby gave them a 14% increase. That means that your tax rate is going to be increased to pay for it. But the firemen are not satisfied with a 14% increase, they are circulating petitions to get an increase from 25 to 30%. Are you willing to increase your taxes to that extent after they already have the six days week they asked for?

HIGH COURT UPHOLDS CITY BAN ON PICKETS BLOCKING PASSAGE ON THE STREETS & SIDEWALKS

WASHINGTON,—The United States supreme court upheld the validity of an Oakland, Calif., municipal ordinance which required that streets and sidewalks be kept clear in labor disputes and other occasions.

The ordinance is a valid power of the city government, the supreme court held in denying a petition for review of the law.

The case was brought to the supreme court by Arthur Weld and Lorine Kinz, who were arrested while members of a picket line patrolling an Oakland store at which a dispute existed.

The petitioners contended the city ordinance deprived them of the rights of free speech and free assembly.

The city of Oakland, in opposing the petition for review, held that the two were arrested for blocking the sidewalk and not for picketing.

The ordinance requires that a crowd, when blocking free passage on a street or sidewalk, must move on when ordered to disperse by a police officer. In the case in question the city said the picket line was maneuvering in a circle which caused almost complete obstruction of a sidewalk 18 feet wide.

Fletcher's Little Wagner Act

I was walking down Broadway last week when I noticed in front of me one of the largest employers of men in San Diego, stepping slowly, with head bent down and shaking it from time to time. I sneaked up behind him with intent of slapping him on the back, suddenly-like, to see what look he'd give me to be woken up from his reveries. But to my surprise I heard him mutter to himself something about a fellow from the beach, or was it his son? I could not quite make out. So I slapped him on the back: "Hello, there, what's the long face for?"

He stared for a second, then burst forth: "You are the very man I want to talk to."

"Well, talk, then."

"You were right and I was wrong."

"That's not the first time."

"I mean about Fletcher. I worked for him at the last election, but by golly, de Aryan, you had him sized up properly. I am glad that you licked the so and so."

"So that's what you were muttering about. I thought you had trouble with your son? What's biting you now?"

"Did you not hear? Fletcher got a little Wagner Act introduced into the state senate to do us Californian employers as much dirt as the federal labor relations board is raising hob with interstate employers."

"What's wrong with it?"

"It's all wrong. It's the same old story about protecting the employees against the employers, but not protecting the employers against the employee rackets."

"You don't mean to tell me that your employees are racketeers?"

"Not my men and women, but the racketeers will get hold of them and force them to join a union against their will and that's where the racket comes in. They will have to pay a mob of outsiders from Chicago and Miami for the right to work in San Diego. That's what Fletcher is doing to us."

POLICEWOMEN WIN SUIT AGAINST CITY

Upholding a San Diego superior court ruling, a district court of appeals held Beulah Childress and Violet Michels, San Diego policewomen, were entitled to reinstatement and back pay. The two women were retired from city service when the city council failed to make provision in the salary ordinance for their pay.

They sued for reinstatement and for salary from the time of their dismissal. Judge Robert B. Burch in a decision March 3, 1940, held with the women and the city appealed.

Confidential Weekly Bulletin

(From Radio Talk KGB, Wednesday, 7:15 p. m.)

Ever since Hitler came into power in Germany I have warned that we must not import European hatreds over here. I warned that we must not engage in boycotts, discrimination and persecution among ourselves if we wish to escape the curse of anti-semitism, race and religious prejudice, which will reduce our country to the same turmoil and finally lead us to war as has happened in Europe. Because I am an apostle of peace and good will in America I have been subjected to all sorts of smear campaigns here in San Diego by those who do not realize that we must not import European hatreds and European methods of boycott and other brutalitarian tactics. Boycotting a man and ruining his business is just as brutal as knocking him in the head and robbing him. There are all sorts of refined brutality. Because I insist that in America we must retain our liberty to work, without having first to pay tribute to a Labor Union, I am being called a Nazi and a Fascist. Some even call me a Communist. But when this goes so far that a New York weekly bulletin, one of those four page multigraphed affairs, labelled "confidential", which are mailed out to businessmen to give them alleged "inside tips" on what is going on behind the scenes, when such a sheet that retails at $5 a year, reports about my activities in San Diego, then, of course, I must be quite important. Here is what one of them keeps on repeating. It calls itself **"THE HOUR"**, Edited by one Albert E. Kahn in New York and lists among its editorial consultants, none else than Wythe Williams, the radio commentator of special scoops fame. Listen to this scoop in THE HOUR:

"Fifth Column Activities in San Diego.—Periodically THE HOUR has touched on the activities of a Fifth Columnist in San Diego, California, who uses the pseudonym of de Aryan. Editor of a pro-fascist weekly called THE BROOM . . . . In the columns of his paper, he carries on a violent campaign against unions. . . . The Century Upholstery Shop at 2603 University Avenue, San Diego, was being picketed . . . de Aryan decided to show his anti-labor sentiments by picketing the pickets. . . . All went well until de Aryan made the mistake of provoking a fight with one of the pickets. The next thing de Aryan knew was that he was stretched out on the sidewalk. . . . Last week de Aryan began 'picketing' the line of union members marching before the San Diego Hotel. De Aryan, once again made the mistake of getting into a fight with one of the pickets. And again de Aryan got very much the worse of the fracas."

Then THE HOUR advises business people to boycott the BROOM. And for this kind of "confidential inside information" some people are paying $5 a year to Mr. Kahn in New York.

Roy Black's Record Cleared

It will interest you to know what happened to the taxi driver who helped my prisoner escape in front of the San Diego Hotel when I had placed the man under arrest for hitting me and destroying my placard. As you remember, Judge Terry gave the taxi driver 45 days in jail for helping a prisoner escape. Then upon my plea the judge suspended the jail sentence because the man had not known that a civilian has as much authority to make an arrest as an officer has. Recently I saw the taxi driver and asked him how he was getting along. He complained that the jail sentence was going to ruin his future employment because as a taxi driver he would have to report it when looking for work. So I went to Judge Terry and asked him to clear the man's record, since he has had his lesson. In conformity with Section 1203, subsection 4 of the California Penal Code, the Judge told the taxi driver to make an application for a new trial, having fulfilled the terms of his probation. The law permits him to plead not guilty and withdraw his original plea of guilty. Then Judge Terry dismissed the complaint and released him from all penalties and disabilities of the previous sentence. In other words the record is wiped clear and the taxi driver does not have to mention his previous arrest. The man is happy now and so am I.

ATMOSPHERICS

By John C. Sherman

When Eleanore said F. R. could take over Ford, she admitted by that little slip of the lip that F. R. is what Communists say he is—a Communist; for they say he is getting labor, farmers, industry, business, etc., under his thumb so when the bottom drops out of everything on acount of his overflooding the country with bonds and other debt, all he'll have to do will be to declare a total emergency and take over 'a la Stalin'.

They should know for they have been the fair-haired boys in Washington, what with Pinkies F. R., Wallace, Perkins, Hopkins, Eleanore, Ickes, Hillman and many more.

Ships to Transport Conscripts

The government already has bought several oceangoing steamers and is preparing to build 200 more. Why? We have little oversesa commerce and it is decreasing. So why so many ships?

The only answer is to transport the wearers of the millions of identification tags just ordered.

And they have the gall to claim no troops will be sent overseas!

They are guaranteeing a victory by England over Germany which means that we'll send Army and Navy over there if England can't win by her own efforts.

But what can we Americans expect, with 27 million Scummies in the country.

FDR Made Up Mind for War

In trying to smear Senator Wheeler over the Communistic lease-lend bill, F. R. said, "if one makes up his mind something is inevitable (re the charge that Sen. W. favored the Nazification of Europe), it can be presumed that one favors it?'

That backfires upon F. R. for he's been shouting that Hitler is going to invade us.

Pope's Influence on Italian Army

Italian soldiers are good fighters, so there's a nigger in the woodpile in so many of them surrendering after putting up only a show of fighting. Some very powerful influence in Italy is doing it, and it isn't the king.

Hull, Rubber Stamp for Churchill

Willkie got to digging so deep into England's strength and weaknesses that Churchill got suspicious and ordered Hull to recall him—which Hull has done.

Patriotism Is NOT War

By the way, what has become of all our chest-thumping "patriotic" organizations? They can't help but know what international Jews behind the scenes in the present administration are doing to their country. The most of them can read, about all can hear, and a few can think a little.

I'll tell you where they are. Many are sold out for jobs, relief or that outing called relief work. Many are scared stiff and are hiding behind bushes, their wives' skirts, etc., hoping others will save them from the slavery to Communistic Jews we all know is staring us in the face.

"Democratic" Dictatorship

Along with the pain it gives me, I am simmering with glee over the fact that the Irish Catholics, Rebel Protestants and Suffragettes who voted the Pied Piper into office three times, are headed for slavery along with us Americans. I'm longing to hear their bellering that'll start as soon as the pap stops—which won't be long now.

Dictators Need Many Spies

A "reputable" business firm told me a few weeks ago that the F. B. I. is looking you up.

They've had me spied upon for three or four years—for being something they are not—an American.

Makers of dictographs, microphones, etc should be very prosperous for the Double Deal has bought one or two for the 22 millions.

A good way to buy votes was to hire 10 or 15 million Scummies to spy upon Americans.

You'd be surprised where I several times saw a government woman switch a lever under her desk when exchanging a few words with me a suspect—suspected of being an American.

U. S. Cat's Paw Again

England has 50 billion dollars invested thruout the world, yet she's going to mooch us for 25 billions to fight Hitler 5 years—thanks to F. R., Hull, Knox, Stimson, Glass, etc, etc.

ANSWERS MRS. ROOSEVELT

CONGRESSMAN SAYS F. D. R. 'INCOMPETENT'

WASHINGTON,—Representative Taber, Republication of N. Y. said that he did "not trust" President Roosevelt and that the chief executive "will go down in history as the most incompetent administrator that this country has ever known".

Taber, ranking Republican on the House appropriations committee, issued his statement as a reply to remarks by Mrs. Franklin D. Roosevelt that she was "astonished and saddened" because, she said, Republican members of Congress had not applauded during the President's delivery of his annual message.

"I think that the statement," Taber said, "entitles us to have an opportunity to tell why some of us did not applaud the President.

"The reason I did not applaud him was because I do not trust him. I have followed him twice and he has betrayed me."

The New Yorker asserted that he had been instrumental in getting through the economy act several years ago, but that the President "destroyed" it "by cutting the compensation of war-disabled veterans—in many cases more than 50 percent—and by contradictory policies, such as the AAA and the NRA."

He also "went along" on "enormous expenditures" for military purposes last spring and summer, Taber continued, and then saw the procurement of defense items "lag tremendously".

Worse than all that," he added "we have drafted and called into servive a lot of boys who have been housed in tents in the wintertime in the north; they have not had proper clothing; they have not had proper medical attention.

"The construction of camps has lagged and the cost has piled up so that the construction of army camps has become one of the worst rackets that has ever existed in the American government."

Taber declared that at the urgent request of the Army and Navy he had consented to award construction contracts on a cost-plus basis without advertisements for bids.

"The result," he asserted, "has been that the manner in which the operations have been carried on & the racketeering ensuing, & the desire of certain of the contractors not to 'kill the job' has delayed by from three to six months the completion of the cantonments which have been authorized.

"Mr. Roosevelt will go down in history as the most incompetent administrator that this country has ever known."

Water Rates to be Increased

(From Radio Talk KGB, Wednesday, 7:15 p. m.)

Walter Cooper, our new city manager, has recommended to the city council an increase in water rates for agricultural consumption. Mr. Cooper at the same time recommended to the State railroad commission a cut in electric and gas rates for the city. The railroad commission granted the cut. Now you will ask why does Mr. Cooper not earn his huge salary of $12,000 as city manager to also produce a cut in the water rates, instead of increasing them!?

The answer is that Mr. Cooper has a political job. It is good politics to reduce the rates of a privately owned public utility, which is so well managed that with the sudden increase in demands upon its facilities for furnishing gas, power and light for our defense industries and increased population, it is able to expand its facilities and still reduce the rates and make a profit.

But the city is not managed along business lines like the Gas & Electric Light company. In the city the revenues from the water department are scrambled up with the taxes in the general fund. Mr. Cooper reported that the water department made enough money in 1937-38 to pay all the cost of maintenance, all the cost of depreciation and allowance for taxes as an utility and on top of that had a surplus of $216,063.98 to apply on the payment of bonds.

That being the case why does Mr. Cooper not earn his salary by recommending a cut in water rates as he did for the Gas company? Fred Rhodes, the director of the works department, does all the hard work anyway and Cooper gets the credit and the salary, almost twice as much as Rhodes. Why does the city manager not recommend that the water department be set up as a public utility and its revenues be impounded in a special fund for water only, so we won't have to have water rates raised to give the politicians more political pies which they squander about to suit their fancies, building jails with ballrooms for the police and such stuff?! How about amending the city charter to protect the tax payers against high water rates as you are protecting them by cutting the gas and electric rates, Mr. Cooper!

TAILORS and CLEANERS
GEORGE A. SAUL, Tailor 1115 Broadway

Those Arabian Congressmen

There is a factual fable—or if there is not one there ought to be—of a band of Arabian congressmen who had a fine tent and a pet camel.

The camel had his proper constitutional quarters, but he was not satisfied to remain in them.

So one day he said to the Arabian congressmen assembled legally and properly in their fine tent:

"Gentlemen please let met put my head in your tent—just my head alone and only for one or two years."

And the Arabian congressmen being good natured and also plenty dumb said:

"Okey old fellow—but just the head and only for one or two years."

But as soon as the camel got his head in the tent, he followed with his whole body and drove the stupid Arabian congressmen all out and appropriated the tent to himself and made a luxurious camel stable out of it.

Then he laughed loud and long and said to himself:

"I have met many dumb animals in my time, but none was as dumb as these Arabian congressmen or as cowardly or as false to the obligation imposed upon them by their masters, the people."

So the camel ensconced himself luxuriously on the deserted divans of the Arabian congressmen, and came to the comfortable conclusion that the loss of such congressmen could not make much difference to the people anyhow.

And indeed it did not for the people said:

"We might as well have an impudent and intruding camel in our constitutional tent as a herd of braying jackasses."

Of course it is only in Arabia that congressmen are so stupid and so neglectful of their own duties, and so disloyal to the interests of their masters, the public—or is it only there?

Let us ponder.—Los Angeles Examiner.

o

REAL AMERICAN

Some of our new soldiers, sailors and marines are put on guard duty at times around important military objectives. They are cautioned against fifth columnists and the like. One of the new soldiers was on guard when a figure approached.

"Who goes there?" demanded the sentry.

"An American," was the answer.

"Prove it!" called the sentry. "Recite the Star Spangled Banner."

"Sorry I don't know it."

The sentry looked relieved. "Advance, American," he said.

o

QUEEN VICTORIA ON ROTSCHILD

Queen Victoria, when a Knighthood was proposed for a **Rothschild,** wrote **Mr. W. E. Gladstone:**

> "It is not only the feeling, of which she cannot divest herself, against making a person of the Jewish religion a Peer; but she cannot think that one who owes his great wealth to contracts with foreign Governments for Loans or to successful speculation on the Stock Exchange, can fairly claim a British Peerage . . . not the less a species of **gambling** because it is on a gigantic scale and far removed from that legitimate trading which she delights to honor, in which men have raised themselves by patient industry and unswerving probity." (read that again) ! ! —America in Danger !

"GOD IS MY LEADER"

Radio Talk over KGB, Wednesday, 7:15, Feb. 5, 1941

"Not you, Herr Hitler, but God is my Fuehrer." These defiant words of Pastor Martin Niemoeller were echoed by millions of Germans. Niemoeller was placed in a concentration camp.

Pastor Niemoeller is not the only Christian who defies usurpation. Millions of Americans take the same stand. We recognize no other leader, no other judge over life and death and no master over our consciences save God and His Son Jesus Christ. If this is a challenge we are willing to make the best of it.

In (last week's) issue of THE BROOM we are presenting to you an appeal written by Dr. Brown Landone of Orlando, Florida, entitled **"Feed My Little Ones"**. I am quoting from it:

"Unless we keep love awake in our hearts, nothing we attain by our consecrated help in this war will be of any value whatever!

"Millions of babies will die in conquered Continental Europe this winter, and millions more will become defective for life, unless we send food to them!

"Those who oppose our sending food, make the excuse that Germany will seize part of the food. But the Red Cross tells us that ALL food sent to the suffering Poles is distributed to them, and that Germany helps rather than hinders the feeding of the Poles. The Polish Relief Commission makes similar report. Ex-president Hoover insists that—in 1918-19 when Germans themselves were starving—the Germans did NOT take even an ounce of the food we sent to the Belgians. The 56 Quaker Executives, engaged in relief work in Europe for years, insist that ALL food sent for the starving people HAS BEEN and IS BEING distributed to them.

"In contrast, those who oppose feeding the starving children have **never** engaged in European relief, and **never** seen mass starvation! Have YOU seen MASS STARVATION?

"If we become so obsessed by fanatical hate of Hitler, that we let millions starve, we will destroy the very Christian values for which democracies are fighting.

"Have you ever looked into the eyes of a mother, whose babe was slowly starving in her arms? If we harden our hearts so that we can calmly look on while millions of children near mass starvation, we shall so sear our souls by lack of love and increase of hate, that when this war ends, we shall be so tainted by hate in this country, that ultimately class will fight class, unto our own nation's destruction." Dr. Landone goes on with his appeal asking that you write to your congressmen and senators that the food blockade be lifted sufficiently to give relief to those who are starving. He also asks that ministers preach on the text of Jesus Christ: "Feed My Little Ones!" You would not refuse the Christ, himself,—would you?

Protect American Flag, Too

"FLAG RIPPING" BUT NOT FOR ALL FLAGS

SAN FRANCISCO, January 18th— At the Offices of the local German Consulate, 26 O'Farrell street, the German Flag was ripped from its staff where it was flying from a side window, of the Consulate, which opened out into a blind alley leading off O'Farrel street.

This disgraceful act was done by two U. S. Navy boys who were cheered on by people who lacked even the courage to climb the fire escape which lead to within reach of the Flag.

January 23rd,— "VANDALS RIP FLAG, WRECK MARIN SCHOOL". And further stated— "The American Flag and the California Bear Flag were mutilated and trampled into the mud."

The British flag and the British coat of arms are being displayed in places, other than their Consulates, in the United States, and, at no time have I read of, or heard of, any violence against, or disrespect for these British emblems by any person or persons—citizens or aliens—of the United States.

What influence; what powers are protecting the British flags and British coat of arms on display in the United States, which cannot or do not protect our own AMERICAN FLAG? Is the United States—unknown to the majority of the true American citizens—becoming a Dominion of the British Empire?

When the AMERICAN Flag can be torn down and trampled into the mud, while the British flags are displayed throughout our United States without the least molestation—then, it is high time that the American citizens—who believe in AMERICANISM, take action for their own protection. Lest we forget—The British flag is also a foreign flag.

Let us Americans stand by the "Stars and Stripes" and continue to sing "The Star Spangled Banner".

Half-Jew Churchill, Brutalitarian

The same Winston Churchill who refuses to permit Belgium, Holland, Denmark, France, Poland and Norway to **buy food from America** for its starving population this winter and avoid mass starvation in the spring, is the fellow whom Gen. Wood is charging with having initiated the war in Europe before Germany was ready for it, because **"Germany was getting too strong"** as a competitor for England in the world markets.

"LEND-LEASE" OPPOSED AS WAR BILL

Gen. Robert E. Wood, president of Sears, Roebuck, appearing before the senate foreign relations committee, opposed the legislation as "a war bill" which would place at Mr. Roosevelt's disposal "the blood and resources of our entire nation".

Wood, who was quartermaster general of the army in the World War, urged the legislatures not to be frightened into passing a "war bill". It was "utterly preposterous", he said, "to believe Germany could invade the United States across 300 miles of ocean."

Gen. Wood said the bill was "not a defense measure or a lease-lend bill" but "really a war bill, transferring the war-making powers of congress to the president." He added:

"This bill turns over to the president the blood and resources of our nation and gives him power to use them whenever in the world he 'deems' there is a country vital to the defense of the United States."

British 'Holding Out On Us'

Concerning Britain's ability to pay for war purchases in the United States, he said "it looks as though our British friends are holding out on us." The British treasury, he said, had failed to include in its American assets certain fire and casualty insurance company shares with a "knockdown sale value" of some $400,000,000.

Wood testified at one point that he had talked with Winston Churchill, now British prime minister, in November, 1936, and that the latter had told him: "Germany is getting too strong. We must smash her."

Is This Contempt of Court ?

PAUL MALLON PREDICTS COURT VERDICT

The supreme court in California has ruled in the case of the Los Angeles TIMES that newspapers must not criticize the court during **pending litigation** before that body. The TIMES appealed to the U. S. supreme court.

Below we are presenting an item from PAUL MALLON'S column in which he predicts the outcome of the Ford cases now pending before the U. S. supreme court on the basis that it is a packed court. We agree with Mallon, but does this not equally constitute "contempt of court", even if we are justified in having nothing but contempt for a packed court?!

Equally we predict that cases of conscientious objectors who refuse to register under the selective service act will not be decided on their merits as to constitutionality but **against them by this same packed court.**

The U. S. supreme court is a packed Hitlerized court, Hitlerized in a modified form to suit American temperament & conditions, but packed and Hitlerized, nevertheless.

WASHINGTON,— The tightening squeeze which labor has been putting on Henry Ford—with a few words of apparent encouragement from the administration on the side—have made it appear that the carburetor of that vast independent business is falling into the clutches of the labor organizing groups at long last. But don't be too sure. So far they have only the tail light.

It is true the supreme court will hand down a decision in two national labor relations board cases against Ford within a few weeks. These will undoubtedly be against Mr. Ford unless about five of Mr. Roosevelt's recent appointments to the court suddenly drop dead. It is also true that both Mr. and Mrs. Roosevelt have said recently the government is empowered to take over any plant refusing to accept defense contracts, which is incontrovertibly true.

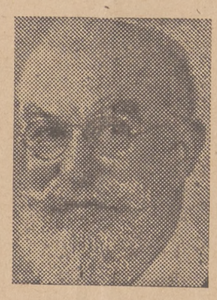
But the whole case is enmeshed in such legal tape that the final result seems far less close than the surface events would indicate.—Paul Mallon.

HEALTH-GERMS

By George Starr White, M. D.

"HEART PAINS"

If you have a sudden, sharp, piercing pain in the region of the heart, don't at once fear that you have "heart trouble". The chances are that it is neuritis (often called "rheumatism of the muscles about the ribs").



Dr. Geo. Starr White

"Inter-costal neuralgia" is the name of "rheumatism" between the ribs. Many think they have pleurisy, as well as heart troubles, when they have these "rheumatic" pains.

To relieve such pains, clear out the bowels and live on acid fruits for a day or two, eating just one kind of fruit at a meal, and in small amounts. Stop eating starches, milk and refined sugar.

Do deep, abdominal breathing even if it "hurts". Breathe slowly and rhythmically.

Eat nothing that has been in aluminum; and drink nothing that has been heated in aluminum, or stored in it.

Alcohol or nicotin in any form will often cause these "heart pains". Serums or vaccins of any kind, or drugs put into the blood-stream, will often cause these pains.

Don't take pain-relievers for "heart pains". Every bit of such dope adds to the "misery". The damage of drugging does not always show itself quickly, but Nature cannot be fooled!

Don't overeat. If often assailed with such pains, eat just one food at a meal. Eat slowly and avoid excitement during or after meals.

New Telephone Directory

Revisions of existing listings will be included in the next telephone directory if they are received at the Southern California Telephone Company business office by the close of business on February 18, according to A. V. Engel, manager. New listings will be included in all cases in which installations have been completed by that time. Delivery of the book will be made in about two months.

Facts About the Telephone

The Bell Telephone System operates more than 20,000 trucks and other motor vehicles.

Radio telephone service between the United States and Australia was opened 10 years ago on October 27, 1930.

At the beginning of 1940, there were 1,359,417 telephones in service throughout the Dominion of Canada, an increase of 36,623, or 2.8 per cent during the preceding year.

During the forty years since the beginning of this century, the world's population has increased about 36 per cent, whereas the total number of telephones in the world has increased from less than 2,000,000 to over 42,000,000, or more than 2,000 per cent.

Forty years ago, more than half of the Bell Telephone System's wire milage was in open wire and about 15% in aerial cable. Today, only about five to six per cent is in open wire and about 34 per cent in aerial cable. More than 60 per cent of the Bell System's wire mileage is in underground cable.

NEW BORN BABE'S CRIES ARE PHONED TO GRANDPARENTS

Perhaps a new record for the youngest person to use the telephone was established the other day at Freeport, N. Y., when an infant born at 12:27 A. M. reported his arrival to his grandparents in Morristown, N. J. at 3 A. M. and "in no uncertain terms," according to the grandmother.

LEGAL ADVERTISEMENT
TAX SALE No. 1251, 1261 A & B 1267, 1271 & 1273
NOTICE of SALE of PROPERTY DEEDED TO THE STATE FOR DELINQUENT TAXES

Whereas, I was on the 23rd day of December, 1940 directed by the Board of Supervisors of San Diego County, State of California, and there was received by me and filed in my office an authorization of the State Controller, dated January 20, 1941, to sell at public auction, for cash in lawful money of the United States, certain tax deeded properties, public notice is hereby given that unless the said properties are redeemed, as provided by law, I will on the 6th day of March, 1941 at the hour of 9:30 o'clock A. M. in the Tax Collector's office in the San Diego City and County Administration Building at 1600 Pacific Boulevard in the City of San Diego, sell as directed the said property for a sum not less than the minimum price set forth in this notice.

The parcel or parcels of property that are the subject of this notice are situate in the City of San Diego, County of San Diego, State of California, and are described as follows:

Sale No. 1251
MONTCLAIR
Block B - Lots 41 and 42
Assessed to Jennie A. Keasley for years 1931 to 1937 incl.
Minimum price $25.00 per lot plus cost of sale.

Sale No. 1261-A
REDLAND GARDENS
Block B - Lot 2
Assessed to Francis L. Kennedy for years 1930 to 1936 incl.
Minimum price $50.00 plus cost of sale.

Sale No. 1261-B
REDLAND GARDENS EXTENSION

Keeping Our Course True To Our Best Judgment

Clark Cornell,30 ;Boyd Cornell, 24

We two Cornell brothers are defending ourselves for disobeying the order to register in the land and naval forces of the United states, not only on what is called the religious grounds of believing in the brotherhood of man but on the civic grounds of a duty to our generation and the debt we owe posterity to disobey any law arbitrarily commanding either a minority or a majority of the people of the nation to "subscribe" to, and by that act mentally underwrite a decree of government that is obviously designed to "bunco steer" the minds of the people into an agreement with making war psychology to order. The act of registering is that of "subscribing" to. Ones loyalty to the principle of government, cannot be measured by his refusal to "subscribe" to any one act or mandate of government, particularly an act that involves him doing a thing that violates, destroys his own best judgment; for the individual's best judgment is the thing that religionists, regardless of their controversy on other items of belief or creed, all agree on is the "awareness", the consciousness of the presence or relationship to what some call the "Creative Intelligence", what others call "Allah" and what still others call God.

When, on February 10, in the Federal District Court in Boise, the Government presents its case against us, it will say a lot of things but we hope it will not mislead the jury from the real issue. Those who keep their heads and think for themselves will keep mindful of the fact that in every generation, those who, regardless of how they have been misunderstood by the masses and accused, and sometimes "smeared", and penalized by those in authority, kept their course true to the light of that "best judgment" were the ones who have ever led the race step by step up from the jungles. They were the ones who in every century since time began, were the true history makers of their times.

The Constitutional Provision For National Defense

On December 9th, 1814, Daniel Webster made that great speech against the proposal of the Secretary of War, for congress to enact a conscription act. It is timely to note, in passing that in those days the President did not high-pressure Congress. The Sec. of War spoke for himself. Our politicians are telling us the present, is the worst crisis the nation ever faced. Of course that's the bunk. Then, for example, the British army had burned the White House at Washington less than four months previous to the date on which Webster made that speech. The nation was at that moment actually at war with Britain and it was the second war with her for that generation. It was a plausible argument that as long as Canada was a Dominion of the British Empire, there was nothing in store for the U. S. but constantly recurring wars. The Secretary of War was for putting an end to it by invading and annexing Canada and proposed the conscription act for that purpose.

Webster, however, was a "statesman". He considered the matter of conscription, not from the standpoint of meeting the, then-existing pressing foreign emergency, but from that of creating future emergencies in the domestic relations of the nation.

Webster was not blind to the problem of defending the nation against its old oppressor and its then actual war-time enemy. But the problem of adequate soldier defenders had been provided for by the Constitution in the form of the militia, the citizen soldiery.

The citizen soldiery of the Republic could be depended on for actual defense but not for going outside the boundaries of the nation. The citizen soldiery were interested in soldiering in defense but they also demanded remuneration in keeping with the character of their services as compared with regular civilian service that was naturally less exacting and dangerous. Why should they not have such consideration?

Then, as now, given that consideration, there was no occasion to resort to conscription. But with that fair play witheld, Webster was wise enough to foresee domestic crises of the most menacing import, as for example what he says in the 13th paragraph of his speech, which is as follows:

"If the Secretary of War has proved the right of Congress to enact a law enforcing a draft of men out of the militia into the regular army, he will at any time be able to prove quite clearly that Congress has power to create a dictator. The arguments which have helped him in one case will equally aid him in the other. The same reason of a supposed or possible state necessity which is urged now may be repeated then with equal pertinency and effect"

Hitler Employs Jewish Methods

Paul Mallon writes concerning the methods used by the Nazis to "acquire and buy" industrial properties in conquered territories:

WASHINGTON,— The Nazis are bleeding white their conquered foes. The industrial life-wealth of Holland, France, Belgium, Norway is being drained into Hitler's coffers drop by drop, in such a way that Germany will own and control the major businesses of these countries no matter what kind of a peace settlement is eventually made. It amounts to economic enslavement.

News of their doings has filtered into official channels here mainly because the Germans—in their buying of industries with nothing except a gun—are acquiring holdings in our own big industries here, General Motors, U. S. Steel, radio.

The Nazi process is neat. They took over control of all banks in occupied areas, forced bank officers to open all safety deposit boxes and vaults in their presence. When they see local stocks of value, or such rich prizes as American securities or gold, they require the owners to "sell" these to them.

The "selling" process is even neater. The Germans pay the owner of the valuables in the local currency of the occupied country—francs in France, guilders in Holland. This currency is obtained mainly by levying upon the occupied country the cost of occupation, fines, assessments, whatever sums the Germans say are necessary. The conquered nations have no means of raising such tribute, so they just print more money. They are being forced into inflation.

The polite finesse of this form of robbery may sound complicated. The results could not be simpler. The Nazis buy everything they want without paying anything for it. The cost is footed by the subject nations which squeeze themselves into inflationary bankruptcy to raise the money so they may be robbed.

Nazis Supplant Jewish Racket

Two years ago I announced that Hitler, as well as Nazidom, is doomed not because it drove the Jews out of Germany, but because it supplanted their racket by copying it and bleeding Germany in the same manner as the Jews did. Now Paul Mallon is describing the method. It was employed in Germany itself to acquire the holdings of those who opposed the Nazi regime. The Nazi high commanders who get the lion's share of these holdings are exploiting the common Germans in private, public and in the army and navy just as ruthlessly as the Jews did. As hatred of the Jews grew till they were driven out of Germany and most of Europe, so hate against the Nazi exploiters will do the same thing.

The method described by Mallon in issuing inflationary money to pay for "buying" securities was the exact method by which post war Germany financed the Jewish "republican" regime who bought up German real estate and industrials at a fraction of a Pfenning on the Mark. The Nazis merely copied the tricks.

The same method has been used and is being used in these U. S. A. to slowly, but surely, siphon ownership of the country, the land and its industries, from the American Gentiles into the hands of the Jewish sharpsters. Henry Ford licked them and the Jews hate him ever since. Now they got Henry Morgenthau into the treasury to make sure of staging the post-war Germany conditions in the U. S. A. **after this country enters the war and increases its debt by hundred billions.**

The idea is set down in the M day, Josh Lee act, introduced in congress. But we ned not even wait for that. It works already now when the Federal Reserve banks "buy" U. S. treasury bonds, in the same way that the Nazis "buy" for example Dutch industrials. The Federal Reserve Banks pay only the cost of printing money, and for that trifle, the treasury prints new money for them **with which they "BUY" another billion treasury bonds** and repeat the transaction indefinitely while, we, the taxpayers must pay billions in interest to the Federal Reserve Bankers **on our own money which we printed for them and which they "loaned" to us.** This is the Jewish method of high finance.

The M Day Plan of Josh Lee

Legislature has been drafted to plunge every American home owner into debt and force him to buy government bonds by mortgaging his property or taking away his savings. As soon as the President declares the "emergency" to exist, everybody who has more than $10,000 in property or savings must buy bonds or else the government mortages his property, takes his money out of the bank and buys bonds for him. Then he is taxed to **pay for his own bonds** and pay for the mortgage on himself to buy those bonds. That will throw many a homeowner into bankruptcy and then the Jews will do here what they did in Europe, they will "buy" up our properties and industrial stock at a fraction of their values at the bankruptcy sales.

The Federal Reserve Bankers own the gold hoard at Fort Knox, it does not belong to the United States government. The International Bankers are the main body of the Federal Reserve Banks. This war was caused by them to impoverish **all Gentile nations of the earth** to "buy" their properties at bankrupt sale.

All that Hitler and the Nazis are doing in Europe today is "buying" valuables away from the Jews, as well as from the other legal owners. Because of it they are going to be as hated in the end as the Jews are today wherever Jews have acquired wealth through treachery instead of producing it through honest toil.

And now read this confirmation by Ray Tucker in National Whirligig:

Hitler System

WASHINGTON,—Herr Hitler apparently has solved the financial problems which now beset the United States. Our treasury financiers envy him and would like to ape his system, but democracy forbids.

It is difficult to say whether Hitler modeled his system after ours, or whether we copied him. Like Roosevelt, he forces the sale of government securities on the banks, which simply give him a credit account commensurate with the securities the banks have bought. Ordinarily that would make for dangerous inflation. It has rolled up excess reserves in this country. But Hitler has a slick remedy for that trouble. When he gives a great munitions order to Krupp's or some other firm, he insists that they use their profits to buy reich securities which he has sold to the banks. In that way he insures that the government securities shall go into industrial vaults, and not operate as an inflationary medium.

Landon Prefers Nazi Victory to War

(From New York Enquirer)

TULSA, Okla.,—Alf M. Landon said last night that United States participation in the European conflict would be a greater calamity to this nation than a German victory.

Landon told the Alexander Hamilton Club at a banquet here he preferred a British victory and favored extending all possible material and monetary aid to England, but did not believe that a British victory was essential to preservation of American security.

Alternatives Grave

"We have a great and a very real interest in English success," the 1936 Republican presidential candidate said. "But to say our national security rests on her victory is a misstatement. Even if England wins this war . . . We are bound to suffer great economic and social disturbances for many years.

"If Hitler wins, it will be a 'new and terrible era' for a time, and we will suffer still greater economic and political disturbances for many years.

"But if we get into this war with fighting forces, when the end comes, we will suffer the greatest economic, social and political disturbances."

Visions Fourth Term

War for the United States would mean delegation by Congress of its functions which should be a warning of what will be attempted under the smoke screen of national defense.

"Even a few months more of what we are doing now will mean economic chaos and a regimented society when the end comes, unless we plan wisely now.

Our Fate Here

"The survival of the Republic is not going to be decided in England. It will be decided here."

He said the Democratic campaign promises of "safety and security" had been followed by actions which cannot provide them, capped by the President's "lend and lease program".

That program, he added, is a "slick scheme" to fool the taxpayers and, unless submitted to Congress, step by step, would lead to war "before we knew it." It has the added disadvantage of sowing the seed of future friction between England and America, he added.

Divided by two	1940	1940	1940	1940

* * * *

A committee of admires of the President was trying to decide where to place a statue of Roosevelt in the Capitol. They decided not to place him next to George Washington because Washington never told a lie. They decided it would not do to place him next to Lincoln because Lincoln was known as "Honest Abe".

The committee was very much in a quandary, but after careful consideration they decided to put Roosevelt's statue next to that of Columbus, because—

Columbus Did not know where he was going
Did not know where he was when he got there
Did not know where he had been when he got back
And did it all on **borrowed** money.
